 Subject : NEW PRODUCT – NO FROST SHOWCASE CHILLER (DOUBLE DOOR)  
 Ref : SAL-SMA-25-4-165  
 CC : DCO, File

---

This is to formally introduce the new addition to our product line-up for Appliances – **Kolin's No Frost Showcase Chiller (Double Door)** with details below:

PRODUCT PICTURE	SPECS	KSIF-762WB2
	SRP	67,995
	ORDERING DATE	April 15, 2025
	Rated Voltage	230 V / 60 Hz
	Gross Capacity	762 Liters (26.91 cu. ft)
	Net Capacity	711 Liters (25.11 cu. ft)
	Rated Power	650 W
	Rated Current	4.1 A
	Weight (Net / Gross)	133kg / 154kg
	Refrigerant / Charge	R290 / 115 g
	Unit Dimension (WxDxH)	1120 x 635 x 1980 mm
	Package Dimension(WxDxH)	1170 x 655 x 2030 mm

#### FEATURES

- 762 Liters Gross Capacity (26.91 cu.ft.)** – this maximizes storage capacity and the organization of food and beverages, keeping their quality and freshness.
- High Efficiency Inverter Technology** – provides precise and efficient cooling while reducing energy consumption.
- Axial Fan Blower / Even Air Cooling** – this ensures uniform distribution of cold air throughout the chiller, ensuring even air cooling across all stored items.
- Double Glass Door** – maintains optimal insulation to preserve the quality and freshness of stored items.
- Anti-Moisture** – keeps the glass display clear, even with frequent door openings. A built-in fan beneath the door actively prevents condensation, ensuring the glass stays free from blurring or moisture build-up.
- Digital Temperature Indicator** – allow users to accurately monitor the chiller temperature settings.
- Temperature Control Buttons** – allow users to set desired cooling levels with precision, tailoring the temperature to meet specific needs.
- R290 Refrigerant** - a safer and more efficient, eco-friendly, and cost-effective refrigerant with zero ozone depletion and low global warming potential.
- Adjustable Shelves** – allow users to organize and separate different items within chiller, making it easier to locate and retrieve specific products.
- Wheels and Adjustable Legs** – users can easily move the chiller to different locations or adjust its legs for uneven flooring to meet the specific spatial requirements.

Please be guided accordingly.
