air purifier

Safer and Cleaner Air with

AIR PURIFIER

Clears away **99.5%** of Airborne Allergens, Bacteria and Viruses

Eliminates PM 2.5 Pollutants

Equipped with

UV Lamp

FEATURES

DC Fan Motor

PM 2.5
Indicator

4-Stage
Air Filtration

Ionizer

Filter Indicator
Sensor

Child Lock

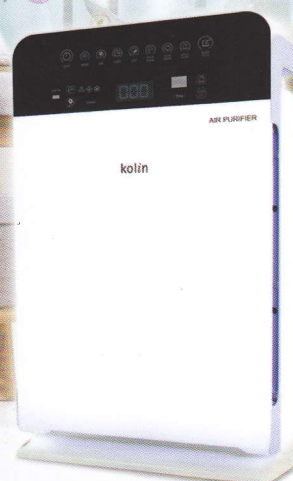

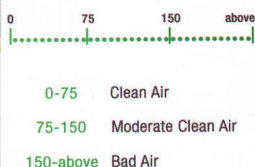

Sleep Mode

Product Specification

Model	KAP-500CHCPUV
CADR (Particle)	500 m ³ /h
Application Area	40 - 57 m ²
Power Input	220V / 60Hz / 80W
Filtration: Aluminum Pre-Filter (WxDxH)	348 x 10 x 488 mm
General Carbon Filter (WxDxH)	348 x 10 x 488 mm
H12 HEPA Filter (WxDxH)	348 x 45 x 488 mm
UV Lamp	UV-C
Ion	20 million ions/cm ³
CCM (Particle)	P4
Sound Level (H)	67 dB(A)
Product Dimension (WxDxH)	412 x 243 x 710 mm
Packaging Dimension (WxDxH)	475 x 305 x 780 mm
Net Weight	9.5 kg
Gross Weight	11.2 kg

PM 2.5 Indicator

The new and enhanced Kolin air purifier is now equipped with a UV light technology and engineered to eliminate harmful contaminants, germs, bacteria, and viruses present inside your home. Together with PM 2.5 high-efficiency filters, our filtration performance and purification process are now better than ever and guaranteed to provide your family with a safer and fresher home environment.

Filtration System with UV Lamp

Aluminum Pre-Filter

Carbon Filter

H12 HEPA Filter

UV-C Lamp

1. Aluminum Pre-Filter

It is a pre-filter that captures large debris of dirty particles and helps to prolong the life of the main filters, rendering the air purifier to run smoothly.

2. Active Carbon Filter

Removes foul odors, gaseous pollutants and volatile organic compounds (VOCs) from the air by trapping gas molecules and removing them efficiently from circulation.

3. H12 HEPA Filter

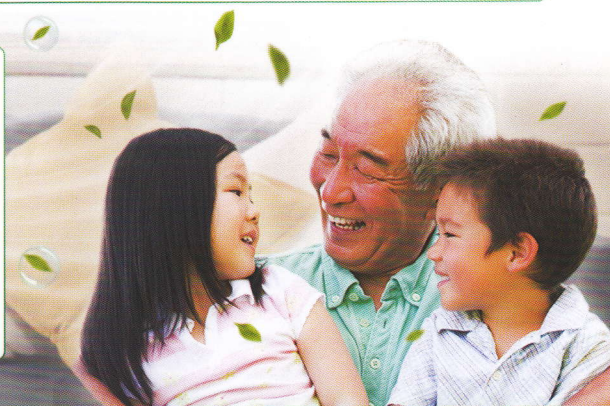

HEPA (High Efficiency Particulate Air) filters are designed to trap up to 99.5% of harmful airborne allergens, at 0.3 microns or larger that circulates in the air. These include household dust, mold spores, pet dander, pollen and tobacco smoke.

4. UV Lamp (UV-C)

UV light is a proven technology used to inactivate effectively various types of bacteria, fungi, mold spores, germs, and viruses present in your household air, rendering it unable to reproduce more.

Benefits of using a Air Purifier with UV

- Enjoy a healthier home with better indoor air quality.
- Better purification process in eliminating molds, pollutants, bacteria, and viruses present in your household air.
- Reducing your family's risks of having lung diseases and skin irritation.
- Keeping your family safe during flu and cold season.
- Making your home less hospitable from harmful airborne allergens and microorganisms.
- Eliminating volatile organic compounds (VOCs) inside your home.
- Equipped with a DC fan motor that helps save more energy.
